## Health, safety and environment test

## Health, safety and environment test Score report

Test title:	Test for operatives
Candidate:	Dominic P Campbell
CITB testing ID:	CITB000529055
Date tested:	28 May 2013
Test centre:	49011
Result:	Pass

### Feedback

Congratulations, you have passed this test.

Listed below are the areas where you have not answered all of the questions correctly. It is strongly recommended that these areas are revisited to ensure you have the full breadth of knowledge, even though you have passed your test:

- Respiratory risks
- Excavations and confined spaces

### Next step: carry on learning

The Health, safety and environment test is an important step in the process towards competency in health and safety, but it is not the end of the process and there are many questions we did not ask you today, so make sure that you strive to keep your knowledge up-to-date.

### Next step: apply for a card

A Health, safety and environment test pass is often a necessary requirement when applying to join a construction industry card scheme. Different schemes exist in different trades and professions. Membership of a relevant scheme helps you prove that you can do your job, and that you can do it safely. Access to construction sites may require a relevant scheme card.

Once you have passed your test, you should, if you have not done so already, consider applying to join the relevant card scheme. However, please be aware that you may need to complete further training, assessment and/or testing to meet their specific entry requirements.

To find out more about many of the recognised schemes you can:

- go online at [www.cskills.org/cardschemes](http://www.cskills.org/cardschemes)
- telephone Construction Skills Certification Scheme (CSCS) on 0844 576 8777
- telephone Construction Plant Competence Scheme (CPCS) on 0844 815 7274
- telephone Certificate of Competence of Demolition Operatives (CCDO) on 0844 826 8385
- telephone Construction Industry Scaffolders Record Scheme (CISRS) on 0844 815 7223.

Continue your construction training with Plant, Health and Safety or Scaffolding courses from National Construction College - first-class instruction in more locations than any other training provider in the UK. Get FREE professional advice to find the right training and funding for you. Visit [www.cskills.org/training](http://www.cskills.org/training) or call 0344 994 4433.
